Dear partners,

SUBJECT: SPECIAL THANKS

We would like to compose this letter for expressing our great emotions for giving a special thanks to our bilateral partnership.

In fact, we really thank you for your great works of construction of a mixed volleyball and basketball court which has been successfully completed. We also promise you to put into consideration of its hygiene, regular monitoring of its function and maintenance as it is our responsibility. Nowadays most of our students are currently engaged and developing their talents in both volleyball and basketball and they are enjoying your significant great works.

Yours sincerely,
